Comments: I lived in AZ years ago and enjoyed the Southeast part of the state vey much. The birding experiences are wonderful. The area around Portal is a special resource. I welcome efforts to maintain the many natural resources in the area. I also support return of the picnic area. As pointed out by others, it is useful to visitors and has not harmed the natural resources of the area. I look forward to a return visit when covid is under control and would enjoy the picnic area. Thank you!
