Title:

Comments: In response to FSM 7700 & FSM 7710, I fill that e-bikes on all trails other than motorized vehicle trails will create an extreme to any persons hiking or horseback riding as they would create an silent and fast approach that can cause a person to be struck by them or cause an animal to be startled causing injury or death to the hiker or rider. These e-bike should only be allowed where motorized vehicles are allowed for the safety of all people and animals.
