Title:

Comments: I rejoined the biking community a little over 2 years ago, after a multi-decade break. Although I am fit and enjoy my self-powered mountain bike, I anticipate I will join the ranks of e-bike owners within the next several years.

My wife and I camp with our RV for over 50-nights a year, often in and near NFS managed lands. We enjoy sharing roads and trails with e-bikes today, and we would like to be legal, appropriate users of these same recreation lands after we start using e-bikes. Please approve these regulations.
