Title:

Comments: As a local resident, business owner, outdoor enthusiast, and mother, I humbly request that you extend the comment period. A sixty day period for a 5700 pg. document, especially given the situation of the world is inadequate. This feels like an attempt to quiet the public and those most impacted. I hear and see Midas propaganda daily and would appreciate the Forest Service giving everyone a fair shot to process the document it took three years to draft.

Thank you,
Kristin Bierle
