Title:

Comments: As a Private citizen I would like to let you know that many people feel as I do about the horrific treatment of the wild horses and burros, etc on this land. You use the word "gather" to describe an abysmal practice that results in sheer terror and ultimately death to hundreds of thousands of horses and burros, donkeys, etc. You sell them to Canada, Mexico, irresponsible persons resulting in torture and death. Leave them alone. Let them live as they historically have. Do not round them up to take away to be sold, killed.

Protect the wildlife on these lands that belong to us. Animals, wildlife have rights. You need to respect those rights on our behalf.
