Title:

Comments: My Name is Driscoll Larrow and I am fully against the Stibnite mine project. Let me say that one more time just to be extra clear. I do NOT support this! While this project claims to have many benefits, it is all a load of horse shit. The cons will always out way the pros. Mining has always shown to have negative impacts on the environment around it. The stibnite mine will, contaminate the rivers, deforest areas, destroy rapids, endanger fish that are already endangered, increase traffic, and possibly hurt the rafting and water-sports industry. I mean come on you guys are supposed to be protecting our forests and rivers and this would be so many steps away from that. Thanks for taking the time to read this comment.
