Title:

Comments: As a horseman, I am not happy about the use of E bikes on trails unless they are on motorized trails only. I live on a narrow country road where you need to stop on a dime since it is a single lane road. Even we don't drive 28 mph. The speed of this E bike, C class is too fast for the safety of walkers, children and other bikers. Even school zones are 20mph.

Yes, I ride on the single lane road to get to the gates to go up on the hills, most of the neighbors are very cognitive of a horse's flight defense but the average person is not. Unfortunately I have had a few close calls from those unfamiliar with horses. As you know this is becoming more the norm. Now let's think about meeting a bike on a narrow trail. You can see the concern for the safety of all, riders and animals. Please be very careful how you open these trails.
