Comments: I'd love to see e-bikes allowed anywhere a traditional bike is. We have e-bikes, regular mountain bikes, and dirt bikes in the garage. I can say the e-bikes are MUCH more like mountain bikes than a gas powered dirt bike.

Since buying e-bikes, my wife & I (in our 50's) can keep up with our teenagers on the trail. We're not faster, louder, or more dangerous than them and most folks wouldn't know which of us were on e-bikes and which weren't. They're a great way to explore the outdoors.

Thanks for considering it!
