Comments: Ladies and gentlemen,

Please understand the importance of the South Fork of the Salmon River.

I am an avid kayaker and have found myself and discovered who I am on the East Fork and the South Fork of the Salmon. I have told many people that this is the best River in the entire United States. We cannot jeopardize this area and the clean water it represents. Gold is no more necessary than a dollar bill if there is no place clean enough to spend it.

This world is feeling pain like the days of WW2, pleas do not crush another reason to be positive.

I beg of you!
