Comments: My wife and I travel all over North America to mountain bike and spend thousands of dollars a year to do so not to mention the 85\$ we have invested in our truck and trailer to allow us to be comfortable while doing it. So you can say we are committed to mountain bike!

My wife is retired and I am close to it at 55 as we were/are formed military/government workers in Canada and are fortunate to have medical coverage for out of country travel.

My wife has recently been diagnosed with leukemia and a heart condition and a class 1 e-mountain bike is the only way she will be able to continue to ride. We are fortunate to be able to ride on most trails in Canada but do love the trails in Washington, Idaho, Utah, Colorado, Arizona...etc.

Class 1 e-bikes do not do anymore damage to trails than a regular mountain bike and do far less damage than horse or motorcycle vehicle.

Thank you,

Stu Evans
