Comments: I fully support class 1 e-bikes on our trails! I have been mountain biking for 35 years, I do not own an e-bike but fully support the access of certain class mountain e-bikes on all trails that allow mountain bikes. I have seen so many get into the sport through e-bikes, it will improve their life and it was all due to the e-bike.

I can also see a transition from where we are to full access by allowing Class 1 e-bikes to follow a non e-MTB rider as a pacer. This may address some concerns others have.

Thank you and look forward to seeing more riders out there!
