Comments: Greetings,

I am writing in support of allowing Class 1 e-bike on public lands. Even though I don't own one I believe they are safe and as environmentally friendly as hiking and non-electric mountain biking while allowing people with health issues and physical challenges to enjoy the outdoors.

I also support class 2 and 3 e-bikes for use on trails designated for motorized use. These should not be allowed on the same trails as non-electric and class 1 e-bikes however.

Thank you,

John Ojanen
