Comments: As a owner of a class 3 ebike and an adult with partial disability non-ebike friendly trails are inaccessible to me and even if you only allowed disabled most of my trail end access would require a friend with an ebike to ride with and get me there. Open access to all ebikes is going to get me into Forest service trails and as my non handicapped friend's' will be along it will be a more desirable safer experience. I hope I have presented a scenario that illustrates how unrestricted ebike access will be better than limited access.
