Comments: In anticipation of retirement, in 3-5 years, my husband and I bought an RV and 2 electric bikes. We plan to visit national and state parks full time. We are so excited to use the electric bikes to explore gravel or paved trails or roads like the Cade's Cove Loop. We are still active and mobile but as we age know this will diminish. The electric bikes will help with hills and longer trails. We don't want to go fast just not kill ourselves. In fact slower is better since the goal is to experience the trail.
