First name: Robert

Last name: Slaughter

Organization:

Title:

Comments: I would like you to please consider including bikes on all trails. As an older American, like many I was out of shape and becoming more and more home bound. Thanks to my bike with peddle assist I'm able to get out and exercise again. Not only has it improved my spirits, it's improved my overall health as well. My wife and I now both have foldable bikes and take them with us whenever possible. Don't close the trails to this segment of the population, please.
