Comments: I support the use of class one Ebikes on any national forest trail that allows biking. As a long time mountain biker and ebiker I've found both groups to be thoughtful, involved trail users.

The riding in San Juan National Forest is amazing and already has many multi use trails that have proven ebikes to coexist well with other users. Having more people and user groups involved in supporting trail use and maintenance is best for the future use of our national forests.

Thank you for the opportunity to comment.
