Comments: I believe the time has emerged that eMtb have a chance lac in the National Forest. I'm a longtime MTB rider and have viewed the eMtb bikes from both a non user and a recent user. We recently rented them for a day in the Ketchum area. We rode on designated eMtb / Moto trails in the Greenhorn area. The ability to ride and climb these trails allowed us to enjoy the elevation gains and scenery that would have been a real struggle otherwise on a traditional bicycle.

In my opinion the class 1 eMtb should be able to access the national forest as well as traditional bicycles.

Thank you for your hard work!
