First name: Walter
Last name: Kotecki
Organization: Delta FlyfishersStockton
Title:
Comments: I spent several years living In Idaho Falls and Fly fishing The Snake , Sweetwater and other rivers and streams. I also had an additional experience here in California at the Penn mine when it would overflow the containment ponds and dumped toxic sulfide wastes into the Makolumne River and the fish kills down stream. I'm almost 90, so my fishing days are almost over, however this seems like a no brainer, for the people of Idaho, to cleanup the damages to the environment caused by expediencies of the past. sincerely, Walter C. Kotecki
