Comments: My wife and I purchased new Giant E mtb bikes this year. I am 61 years old she a little younger. We enjoy everything outdoors from camping, hiking, riding our E mountain bikes, I ride dirt bikes , and we also ride in our side by side.

I probably understand trail use more than a lot of people. I don't see any reason to not ride E mtb bikes on trails where bikes are allowed. The experience is very much like riding a regular bike . But it opens it up for more riders to enjoy. Emtb do not cause anymore trail damage than a regular bike. Speeds are the same as a regular bike rider that is in pretty good shape from getting to ride a lot.

A Emtb is very different from a dirt bike. I would not want to ride my dirt bike on bicycle trails, dirt bike would rough up the trails for the bicycles.

We really enjoy our Emtb and it is a great workout for us

Thank you

Mitchell O'Daniel
