Comments: I support class one E-bike access on National Forest roads and lands. Being 53 years old with a total hip replacement, a knee replacement pending and arthritis, allowing class one E-bikes on National Forest roads and trails will allow me to enjoy all of the trails I used to enjoy on my non-assisted mountain bike. I love to ride my mountain bike on trails and I look forward to riding again in the Hoosier National Forest. This will also allow me to ride the trails again with my two younger sons.
