First name: Phillip

Last name: Dyson

Organization:

Title:

Comments: I am 62yrs old with a total hip replacement and bad knees. My e-mtb has helped me ride to places I never could before and I'm in better shape cardio and weight wise than I was at 42. Please open more lands to e-MTBs. We are not hard on the trails like motorcycles and make no more noise than a conventional bicycle. Please open up more opportunities for riders like me.
