First name: Jay

Last name: Brightwater

Organization:

Title:

Comments: I've been riding an electric pedal-assist mountain bike for 5 years and support respectful and legal access for 250w ebikes to all the same places as push-bikes have legal access to here in the UK. No e-motorbikes allowed. This has massively helped local tourism, businesses, riders, forestry authorities and local communities, so I trust it will do the same in Canada.
