Title:

Comments: Mid-Swan Project

Sirs/Madams:

Your proposed make-work, timber welfare project is a reckless, ecologically stupid and economically phony scam with no benefit to society or the citizen owners of the forest and shows the degree to which your agency is captive to a moribund logging industry that can't support itself without government handouts and gifts at our expense.

Further fragmentation of that priceless forest to transfer our wild nature into money for a sick, failing exploitative racket is nothing short of criminal.

Shame on you salaried whores, betraying the America people for the sake of profiteering destroyers whose every action hastens the onrushing and unstoppable disaster of the climate change catastrophe.

Are you both blind and stupid, or simply suicidal and self-destructive?

With no respect at all, I am,
