Last name: Lee

Organization:

Title:

Comments: Please allow class 1 eBikes on all trails that allow mountain bikes. I suffer from fairly severe arthritis which has prevented me from mountain biking like I did when I was younger. My e-bike has allowed me to enjoy mountain biking again and has literally saved my life. E-bikes do no more trail damage than a regular mountain bikes and allow people with disabilities access to recreational activities that they otherwise would not be able to enjoy.
