First name: Perry

Last name: Hatcher

Organization:

Title:

Comments: I would have to imagine that someone is whining and now you're considering the restriction on E-bikes. Please don't let the minority control the majority again. If it really is public land then let the public use it as much as possible. Please don't close it to everyone except the special interest minority. There is no more impact from an E-bike than any other bike. So, let's not pretend there is. Perry Hatcher.
