Comments: I support allowing class 1 and class 2 ebikes to utilize trails that regular bicycles are allowed to ride on. With the speed limiters required on class 1 and class 2 ebikes, there is very little difference in impact between regular bicycles and ebikes using trails. Also, ebikes allow for greater access for individuals with disabilities or health conditions that limit mobility. We should strive for improving access to outdoor recreation sites to as many people as possible. The more people who can enjoy and utilize these resources, the more people who will grow to respect and value our forests.
