Comments: Defintion clarification: class 1 e-bikes are not motor vehicles. They are pedal assist bicycles that don't move unless guided by the rider. In addition, just like the gears on most bikes, the assist unit is metered by the riders discretion and does not engage unless pedaling occurs.

Class 1 E-Bike. An e-bike equipped with a "pedal assist unit" (remove motor) that provides assistance only when the rider is pedaling and that ceases to provide assistance when the e-bike reaches the speed of 20 miles per hour.
