Comments: I have enjoyed riding my E bike for seven years.

I needed to have two total hips and stop horseback riding. I am not a strong or athletic woman but I certainly enjoyed being out in nature on our beautiful trails in Oregon. I definitely respect the rules and nature. I think there is a definite place for these bikes wherever regular bikes are allowed. I would not be able to enjoy our scenic state and beautiful forests and parks and recreational areas if not for being able to ride my Electric bike.
