Comments: I am disabled. I got a class 1 ebike so I could get out and enjoy our beautiful forest trails. I'm 64, on oxygen. So it really sucks that I can't enjoy a trail ride with my friends or alone.

It's been a blessing for me to be able to get out & enjoy life like I used to, well almost.

Please don't penalize me by restricting where I can ride just because I need a little help pedaling.
