Comments: I support the forest service efforts to include e-bike classes into the designation for non-motorized access to trail systems. As a 25 year resident of Bend and a long time road, Mt. and e-bike rider I believe that equal access to trails is imperative, and serves the broad base of outdoor enthusiasts and tax payers who help maintain trails, and use them regularly. The current usage rules serve a small group of users, and does a disservice to the greater community by excluding e-bike riders. Thank you.
