Title:

Comments: I am opposed to E bike in the NF and on bike trails. Though they do provide better access to certain individuals, the increased traffic is not wanted. Furthermore, many of the places pedal bikes go are by riders that have the skill, fitness, and self support to access this themselves which would be less the case if everyone had access with e bikes. Any "motorbike" trail should be used by ebikes. Bike specific trails should be off limits to ebikes.
