Comments: The Talkin family has owned property with frontage on the Pedlar River since 1969. We use the Pedlar River as a recreational resource (swimming, fishing and picnicing). Over the years we have noticed an increase in the degree of fluctuation in the clarity and volume of the river water, presumably due to upstream timbering operations. We strongly urge those in charge of the management of the Pedlar River watershed to preserve the remaining moderating properties of all forest land in the watershed by not permitting cutting or burning therein.
