Comments: Being a fellow guide on the Salmon river for several years now, I enjoy all that the Salmon River has to offer professionally and as a private boater. Being able to share unmatched terrain and history with family and friends is what makes that place so special. I fully object to this mine because, let's be honest, when has a mine ever improved the area it invades? It's doesn't. It destroys. It will leach containers into the water harming wildlife and vegetation. It will destroy a sacred area that people choose to recreate in and keep alive for hundreds of years to come.
