Comments: I am writing in Support of the Midas Gold Reclamation Project.

Where did you ever hear of a Gold Mining Company wanting to Start with reclamation!

Sounds like a heck of a deal from an economic point of view.

So instead of asking the tax payers to clean up the stibnite area this company says it will clean up the tailings before it starts to develop new ground and to do it at no cost to the public.

If this was the only reason I would support this cause. There are many other good reasons to support this petition. Help us keep the school in Cascade open and thus our children in their home town instead of commuting 60 miles a day for classes in McCall.

Rare earth minerals available at this site.

China is not our friend.

I urge you to support this project and the good it will provide to my community and the United States for the next 50 years.
