Comments: I am opposed to the logging of 11,000 acres in GWJNF in Amherst and Rockbridge counties. This project would directly impact water quality in the Pedlar Reservoir, which is the main source of drinking water for my hometown. I feel fortunate to have water quality like we do, and I'd like to keep it that way. I feel that no good but only loss can come of logging 11,000 acres in the Pedlar watershed. Please reconsider the shortsighted view of letting this project proceed.
