First name: Laura

Last name: Yale

Organization:

Title:

Comments: E-bikes should be treated as motorized vehicles, as they have a motor. I believe that they should not be allowed on non-motorized trails. There are many trails and roads on which their use is appropriate. E-bike users will still have access to many recreational opportunities and to keep them prohibited from non-motorized trails will help keep recreational uses balanced on our trails.

Thanks for your time and consideration.

Laura Yale
