Title:

Comments: Please allow ebikes everywhere. They are so beneficial and fun. Riders will have to obey the same rules as bikers which are already in place.

I have been a motocrosser for most of my life and we have always been told we weren't allowed because of noise and damage the bikes cause to the land. Now both of those issues are remedied.

It's really everyone public land pleas let us use it the way we enjoy. In other words let us pursue our happiness they way we choose to.
