Comments: As a life long cyclist I would like to add my comment to the discussion and decision on e-bike use on public land.

1. There should only be class one on non motorized trail and not in wilderness.
2. There should be a consideration for senior citizens and those that carry a disabled card as those that can ride e-bikes on said trails. The e-bike has the potential to place inexperienced riders at expert to pro-speed on a trail and can be a danger to themselves.

As an e-bike rider as well as a conventional one I don't see any increased trail damage using an e--bike. For what its worth, they are fun to ride.
