First name: Pat

Last name: Brown

Organization: Santa Fe Fat Tire Society

Title: Member

Comments: WE have an aging population that wants to be outdoors and need assistance. I for one can not climb like I use to and looking forward, I may opt out of some rides due to the physical strain on my body. Some assistance as in a type 1 bike would be helpful. I am have the skills to ride, not the endurance. The assist of these type of bikes is mostly to help uphill travel.
