Comments: I am in favor of allowing e-bikes on at least some bike trails. I believe that e-bikes give some users (aged and disabled) access to some public lands that they otherwise could not reasonably access. I am not sure if it would be discriminatory to limit it by age but if the number of users is an issue it should be a consideration. Perhaps not every bike trail should allow e-bikes but there should be access to some trails. If there is classification of e-bikes there might also be a classification of trails.
