First name: Susie

Last name: Quesnel

Organization:

Title:

Comments: Please DO NOT allow electric bicycle (e-bike) use on National Forest System (NFS) lands that are not designated for motor vehicle use. The use of these bikes are allowing users to get further out into the backcountry with no skills or fitness to self rescue. They are also able to travel at speeds they don't have the technical skills to handle. There are trails already designated for motor vehicle use for them to be on and help each other out on.
