Title:

Comments: Please keep open the option of creating mountain biking trails in the Manti LaSals as well as keeping existing trails open. If these areas are closed to the relatively few riders who frequent them, it will create overcrowding in the more popular areas.

In these times when one of the only activities we can do safely is mountain biking, it is crucial to keep these areas open for the mental and physical health of our community.

Mountain bikes are quiet as compared to off road vehicles and damage is minimal to the surface. Horse travel is equally or at times more damaging to the trails, so it makes sense if horse travel is allowed that mountain biking also be allowed.

Thank you.
