Comments: I'm writing to support the Stibnite Gold Project.

I've done a lot of reading about this, and I believe that Alternative Two of the project is the best one.

Idaho will be served by the jobs created in mining for gold, and antimony. It will be the only source of antimony mined in the USA, which is vital for our national defense and aerospace industries, as well as batteries and fire retardant materials.

It would be a huge benefit to produce gold and antimony right here in our own state. Midas Gold has workable plans to restore the environment, and fish and game habitat. We the public, are counting on this process to approve Alternative Two of the Project.

Thank-you for your consideration.
