Title:

Comments: I am almost 69 years old and have been an avid mt. biker for over 35 years. In the past 10 years because of old age and lung issues I have been riding my bike less and less because it is just too painful. I bought an E-1 pedal assist mt. bike early this summer and have rediscovered the pure joy of mt. biking again. My bike handling skills are still excellent it's just the uphill were too hard on an analog bike. I have enjoyed the local trails where e-bikes are allowed (Eve's Gulch, Greenhorn Gulch, etc.) but I wish trails the trails in Adams Gulch and Fox Creek were legal to ride on an e-bike. It would allow me to ride my bike right from my house and not have to drive to the legal e-bike trailheads. Thank you for considering my opinion. Sincerely, Karl Weatherly
