First name: Walter

Last name: Pershing

Organization:

Title:

Comments: I fully support any changes to the current regulations that allow the use of CLASS 1 E Mountain Bikes on trails that currently allow bikes. I also support that eBikes be allowed on any future trails/roads that shall be opened for bike use. I'm a long time mountain biker who recently purchased an eBike to continue my riding without the strain put on my body by a non assisted mountain bike.
