Comments: My husband and I got our E-Bikes in 2016. It opened the door for us to mountain bike on all the local trails. Without the assist we could not enjoy this type of riding. We both have physical afflictions that limit us. Finding that trails were closed to us was so disappointing and disheartening. We just want go and enjoy nature I hope the trails will open. The E-Bikes are just that;bikes. You peddle them like a bike and when it is needed you add an assist. But you have to still peddle. Please open the trails so that us older people can still enjoy the nature and beauty that surrounds them
