Comments: Hi folks, all federal lands used by hikers, skiers, bikers, horseback riders or others should also be accessible to e-bike riders as well. Many people have injuries limiting their ability to hike on federal lands an e-bike allows these folks to enjoy these lands as others would. I myself will one day be using an e-bike as my knees will not allow me to walk/hike in the near future. Please allow or remove restrictions and allow e-bikes on federal lands.
