Comments: I would rather not see e-bikes on all trails that current mountain bikes are allowed, but allow each individual forest develop plans that designate some e-bike compatible trails. Forest managers should work with the biking community to determine what makes sense for their communities, no giant blanket policies.

Also, ALL forest service roads should be e-bike accessible, that is just silliness that it's illegal to ride an ebike on a road!

Lastly, please keep all bikes & e-bikes out of wilderness areas.
