Title:

Comments: As an avid mountain biker myself, I support allowing e-bikes on trails that currently allow other forms of motorized use. I also fully support their use on road systems and "two track" type trails.

I do not support allowing e-bikes on trails that are currently non-motorized, "single track" type trails. I believe their increased uphill travel speed and the increase in users that may occur as a result of a change in policy would be detrimental to other trail user groups and the "atmosphere" of these trails.
