Comments: Class 1 E bikes should be allowed on all trails. They help further the appreciation of nature and will help others enjoy and explore the outdoors in other areas that would be very difficult for the average mountain biker to be able to achieve. People that ride the bikes have a great appreciation for exploring and appreciating wildlife and the great natural wilderness that our country has to offer. Yeah E bikes are not motorcycles or motorbikes. They are not designed to destroy the appreciated trails.

As I watch some of the politics unfold in the San Francisco Bay area especially the mid-peninsula where they are banning E bikes is completely ridiculous. There is absolutely no rational reason why E bikes should not be allowed on trails where any bike is created. We help pay for the taxes to appreciate things such as the great outdoors.
